

# Task

1. Make all **headers bold, center-aligned**, and with a **light blue fill color**.
2. Change font type to **Calibri** and size to **12** for the entire dataset.
3. Align **numeric values to the right** and **text values to the left**.
4. Format **Total Sales** and **Unit Price** as **Currency (₹)**.
5. Format **Customer Rating** as **one decimal number**.
6. Format **Sale Date** column as **dd-mmm-yyyy**.
7. Highlight **Total Sales > ₹75,000** in **green fill**.
8. Apply a **Color Scale** on the **Units Sold** column.
9. Use an **Icon Set** for **Customer Rating** (high = green smiley, low = red sad).
10. Apply **All Borders** around the data.
11. Shade the **header row** light gray.
12. Apply a **theme of your choice** to the workbook.
13. Copy the formatting of one well-formatted cell and apply it to the entire “Region” column using **Format Painter**.
14. Apply **Table Style Medium 9** to convert the dataset into a table.

15. Freeze the **top row** (headers).
16. Hide the **Region** column and then unhide it again.
